

Give Care...
Who cannot care for themselves

HOPE AT HOME

An Initiative of Hope Ek A.S.H.A

An Organization dedicated to the Care of
Alzheimer's Disease Patients and their Caregivers.

Granted Special Consultative Status by
United Nations Economic & Social Council (ECOSOC)

The World Has Gone Virtual, So Have We!

Get Dementia Care in the Comfort of your Homes!

Hope Ek A.S.H.A launches its Online Homecare plan for Dementia Patients

While navigating the new normal, the home care model is designed to provide a structured programme for the care of dementia patients under regular guidance and supervision of trained and experienced professionals via virtual connect or on call. Family caregivers/ professional caregivers are periodically counselled, prepared and equipped to take up this challenging task.

Since no two dementia patients are the same in their behavioral manifestations hence the approach to deal with them needs to be patient-centered. Thus, a customized care plan is developed and curated for each patient looking at his/her needs. In this model, family support is paramount.

WHAT WE OFFER

**Extensive
Case
Assessment**

**Customized
Care Plan
for Patients**
